Suntory Holdings Limited

2-1-40 Dojimahama, Kita-ku,
Osaka City, Osaka, Japan

April 2024

Suntory Holdings Limited is inviting ambitious students to join our Production Technology Engineer Internship in August 2024. This is a unique opportunity to immerse yourself in the world of creation and innovation, right at the forefront of the beverage industry.

About Suntory Holdings Limited

As a global leader in the beverage and food sector, Suntory is dedicated to the pursuit of excellence and innovation. Our commitment to quality and sustainability drives us to constantly push the boundaries of what's possible, making our products not just consumables, but experiences. With a history of blending tradition with innovation, we offer an environment where your ideas can flourish.

Internship Overview

Our internship is designed to provide hands-on experience in the field of production technology. You will be closely involved in a wide range of production research activities, including technological development experiments, process improvement proposals, and data analysis, all within the realm of our beverage production sites.

Internship Details

Duration: 10 days in August 2024

Location: Tokyo and various production & R&D sites across Japan
